

A New Approach to Challenging Issues

Life Care Planning is an innovative response to the challenges created by long life, long-term illness or disability.

A Life Care Plan spells out how the elder law attorneys and elder care professionals at the law firm of Weiner & McCulloch, PLLC will help you get the best possible care for your loved one in the least restrictive environment—while preserving your loved one's wealth to the greatest extent possible.

Bundling asset protection, public benefits qualification, care coordination, nursing home advocacy and crisis intervention services into a convenient package, a Life Care Plan is the ultimate protection for elders and those who love them.

Preserve Family Wealth

A Life Care Plan can help resolve the legal and financial problems created by the high cost of long-term care. It may include elder law services such as wills, trusts, powers of attorney, advance directives, Medicaid qualification, asset protection planning and strategies to pay for long-term care.

Enhance Quality Of Life

A Life Care Plan can address the caregiving challenges that most families bear in silence. It can include care assessments and in-home and/or facility referrals, family education and decision-making support.

About Thomas W. McCulloch

As both an attorney and certified public accountant (CPA), Tom has over 30 years of experience with all facets of estate planning, probate law and tax planning. He believes that a good Life Care Plan, structured from an elder-centric point of view, can fill critical gaps often found in providing for elders.

The Weiner & McCulloch team believe in practical planning for the senior with an eye on wealth preservation, tax planning, and optimum flexibility given the inevitable limitations often present with aging.

Benefits for All

A Life Care Plan lightens the load for the whole family.

Traditional elder law firms focus on saving the elder's money for the next generation. As a Life Care Planning Law Firm, our goal is to use the elder's money to maximize his or her quality of life and independence.

- Elders get the right care sooner which means aging with maximum possible dignity and independence and, in some cases, delaying the transition to nursing home care.
- The spouse and dependents can have comfort knowing that provisions have been made for their financial future.
- Caregivers get relief from the burdens of care coordination.
- Family members are empowered with education, support and guidance with every legal, health care and long-term care decision as the elder's condition progresses.

Why Hire A Law Firm To Help You Care For Your Elder?

Families appreciate having a law firm advocate on their side if there are problems with public benefits agencies, care providers or estranged family members.

Whether you live across the street or across the country, a Life Care Plan offers welcome reassurance that your elderly loved one will enjoy the best possible quality of life until the end of life.
